LIQUID WASTE POLICY

INTRODUCTION

Waste Management Policy – Preamble

Sanjivani College of Pharmaceutical Education and Research, established in 2004 under the aegis of the Sanjivani Rural Education Society, Kopargaon, is situated in the rural region of Ahmednagar district, Maharashtra. The institution is dedicated to providing quality pharmaceutical education and fostering academic excellence while serving the educational needs of students from the surrounding rural communities. The college is spread across a lush green campus of approximately 20 acres, equipped with modern infrastructure and facilities that support effective teaching, learning, research, and overall student development. It is permanently affiliated with Savitribai Phule Pune University, Pune, and is recognized under Sections 2(f) and 12(B) of the University Grants Commission (UGC) Act. The institution is committed to promoting sustainable development through environmentally responsible practices and the efficient management of natural resources. As part of this commitment, the college has adopted a comprehensive Waste Management Policy to ensure the systematic collection, segregation, treatment, recycling, and safe disposal of waste generated on campus. The policy aims to minimize environmental impact, maintain a clean, healthy, and safe campus environment for students, faculty, staff, and visitors, and encourage the adoption of sustainable waste management practices. The institute emphasizes waste reduction at the source, proper segregation of biodegradable and non-biodegradable waste, recycling and reuse wherever feasible, and the conversion of organic waste into environmentally friendly products through appropriate processing methods. Through continuous awareness programmes, stakeholder participation, and compliance with applicable environmental regulations, the institution strives to cultivate environmental responsibility and contribute to a sustainable future.

POLICY STATEMENT

Policy Statement

Sanjivani College of Pharmaceutical Education and Research is committed to adopting sustainable waste management practices that minimize environmental impact and promote a clean, safe, and healthy campus. The institution shall implement an integrated waste management system based on the principles of **Reduce, Reuse, Recycle, and Recover**, ensuring the responsible handling, treatment, and disposal of all categories of waste generated on campus. Liquid waste generated within the campus shall be managed through appropriate collection, treatment, and disposal systems in accordance with applicable environmental laws, statutory regulations, and guidelines issued by the Government of India, the State Pollution Control Board, and local authorities. The institution shall ensure that hazardous, biomedical, chemical, and other regulated wastes, if generated, are handled, stored, transported, and disposed of only through authorized agencies in compliance with prevailing national environmental legislation and safety standards. The College

recognizes its legal and social responsibility to protect the environment by implementing effective waste minimization practices, promoting resource conservation, and creating awareness among all stakeholders regarding sustainable waste management.

Policy Objectives

The objectives of this policy are to:

- Ensure compliance with all applicable environmental laws, regulations, and statutory requirements related to waste management.
- Establish a systematic and efficient framework for the collection, segregation, storage, treatment, recycling, and disposal of waste generated on campus.
- Promote the principles of **Reduce, Reuse, Recycle, and Recover (4Rs)** to minimize waste generation and maximize resource utilization.
- Encourage environmental awareness and active participation among students, faculty, staff, and other stakeholders in sustainable waste management practices.
- Ensure the safe handling, storage, transportation, and disposal of liquid, solid, hazardous, chemical, and other regulated wastes in accordance with prescribed safety standards.
- Minimize the use of single-use plastics and promote environmentally friendly alternatives across the campus.
- Maintain a clean, hygienic, and pollution-free campus environment that supports teaching, learning, research, and community well-being.
- Encourage continuous improvement in waste management practices through regular monitoring, awareness programmes, and periodic review of the policy.

Organization and Management

The successful implementation of the Waste Management Policy requires the active participation and coordinated efforts of all stakeholders. The following personnel shall be responsible for planning, implementation, monitoring, and periodic review of waste management activities:

- **Principal**
 - Overall policy implementation, monitoring, and ensuring compliance with statutory requirements.
- **Heads of Departments (HODs)**
 - Ensure implementation of waste management practices within their respective departments and promote environmental awareness.
- **Faculty Representatives**
 - One faculty member from each department shall coordinate departmental waste management activities, awareness programmes, and compliance monitoring.
